

Custom Vehicle Wrap Design

We specialise in creating bold and impactful vehicle wrap designs that look amazing to promote your brand.

From your typical work utes, vans and commercial truck we can customise your wrap to suit your unique style and image. Whether you want a full wrap that completely transforms your ride or a more subtle design that still grabs attention, we've got you covered.

We offer two design packages, Standard & Premium.

Our Standard Package covers your basic vehicle branding which is more suited to fleet signage or someone looking for a more cost-effective option. But if you are looking to make a real impact our Premium Package is for you. Our Premium Package covers a partial or full wrap design.

Please note package includes design only (No print or install)

You will be provided with a digital file in PDF format.

The vehicle templates can be used as a design aid and used for installation instructions.
